New York, Sept. 39.—Cotton.—Messrs.
Hubbard, Price & Co., in their cotton circular to-night, say: "Liverpool shows a steadier tone this morning, due, according to private advices, to the execution of American buying orders. The feeling abroad is, however, very bearish, and the advance was quickly lost when the estimate of receipts was received. Our cables report good business is being done in Manchester, but spinners are disposed to remain short of cotton while contracting for their yarns ahead, believing the raw material will further decline under pressure of receipts. Opening steadier, our market became weak, and recovered upon the receipt of the weather predictions of further rain over the cotton belt, and the possibilities of a cold snap in the Mississippi Valley to-night. Operators believed the present prices are only sustained by the continued rains, and that the market will drift lower upon the appearance of clearing weather. Our crop advices are good, and we do not believe that the lowest expectations of spinners will be confirmed by the continued rains. The tendency is, however,
